Do digital technology e-learning projector to use

Very good clg and good staff

Improving teaching skills

You should take practice daily.

In proper way management should be there.

.

Improve the library facilities

The college must have to help the students in practical knowledge more than theory. For each and every programming topic computer lab must be provided to the students for good understanding. Campus placement must be provided to the students. The college must have to guide the students in finding a satisfactory job as per the standards. The management should take students concern seriously otherwise taking these type of feedbacks is meaningless and worthless. If the college is don't do the needful then the feedback is just a waste of time.

Excellent college

no

Some teachers are not well educated.

Excellent

Nice

Develop library

Many boys and girls hang out together in your campus. Stop them and sit together in class.

Teaching staff is very nice

All is excellent , I don't have an idea to give you any suggestion.
