Reports on workshops, seminars, and webinars

1. The college organizes workshops, seminars, and webinars with the intention to impart the knowledge of new techniques to the students & to meet the expectations of the industry.

2. To bridge this gap and equip the students of the current generation with new-age technologies, seminars and workshops play an imperative role. Ensuring a proper flow of knowledge Seminars and Workshops assists in dynamic interaction and active participation boosting the skills and expertise of students.

3. The importance of seminars and workshops for students is often acknowledged as a prime concern. Keeping in mind the importance of seminars for students and the benefits of workshops for students, seminars and workshops are an innovative and welcomed step toward modern education. Nowadays, seminars in colleges are encouraged, recognizing the importance of seminars for students at an early age.

4. Generally organized for either a single day or a couple of days, the prime objective of seminars and workshops is to assemble like-minded intellectuals and professionals to trade ideas, thoughts, and views related to a specific topic.

5. The importance of seminars and workshops for students in higher education.

a) Most young graduates lack confidence and fluency while interacting verbally.

b) Coming from rural or sub-urban backgrounds, many students hold good academic records and industrial skills but lack the art of presenting.

c) Speaking about a researched topic in seminars and workshops before a gathered audience boosts the students' confidence in preparing them precisely for interviews and group discussions.

d) Seminars and workshops allow one to interact with experts from a specific field.

e) While discussing the relevant topics of the particular subject, students tend to learn about the latest information and new skills related to the subject.

f) In seminars and workshops, students and faculties from different educational institutions will participate.

g) Meeting new people can help the students to get guidance and solutions related to common problems.

h) Making new friends can not only encourage new ways of thinking and learning but might also open up new opportunities.

i) Talking and learning about a new topic will encourage the students to explore new areas relevant to the topic.

j) Students will feel motivated to research and learn new things with proper guidance from teachers and experts. Students feel motivated to publish their research journals, contributing significantly to the education sector.

k) Students learn more effectively and efficiently in a learning environment different and unique from classrooms.

l) Far from textbooks and academic syllabuses, students research and learn independently, boosting their confidence, performance, and productivity.

m) Workshops and seminars are more than necessary in higher education, where every aspect of the study is relevant to market and industrial standards.

During the assessment period, workshops, seminars, and webinars were organized in the college.

Their details are furnished in the below table:

1. The inauguration sessions were chaired by the principal Dr. Sudhir Jagtap, and Ph.D Guides were invited as resource persons for the workshops. The post-graduate students and those registered for Ph. D programs participated in the workshops.

2. The general process of research methodology is almost common to various domains of knowledge that starts with the conceptualization of the problems, followed by the statement of objectives and hypothesis, conducting experiments, and surveys, carrying out data analysis and making interpretations thereof, and ultimately communicating the findings.

3. **Objectives:**

a) Identify and discuss the role and importance of research in the social sciences. Identify and discuss the issues and concepts salient to the research process.

b) Identify and discuss the complex issues inherent in selecting a research problem, selecting an appropriate research design, and implementing a research project.

c) Identify and discuss sampling, data collection, analysis, and reporting concepts and procedures.

d) To understand research philosophy

e) To enhance the understanding of the research process

f) To develop skills required by the researcher and understand different applications of research

g) To explore different techniques of research

h) To acquire mandatory skills and competencies to conduct medium-scale research and to produce a report with tested substance.

4. Outcomes:

a) Most helpful and informative session on Research Methodology. The presenter was fantastic, straightforward, easy to follow, and provided immediately applicable tips.

b) It was refreshing to hear from a Resource Person in the field of research who can help others maximize the potential to obtain a competitive grant.
