Sanjeevanee B. Bhalerao

Asst. Prof., Dept. of library & Information Science

Report on: Blood Donation Camp

Date: 7th February 2023

Venue: Chandraii Hospital SVM, Udgir.

A Blood donation camp was organized by our NSS unit, of Swami Vivekanand Mahavidyalaya, Udgir through which more than 78 units of blood was donated by both students and the staff members of our college. It is a way of SVM College gesture in bringing a ray of hope to contribute to the serious problems of acute shortage of blood. India faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.

Objectives:

- To make aware the people all over the country about the importance of the voluntary blood donation.
- To successfully achieve the target of Voluntary Blood Donation to fulfill the urgent need of the needy patients.
- To store the blood in stock in blood banks for any urgent and serious requirement.
- To promote and emphasize the self-esteem of blood donors through a lot of thanks.
- To motivate and encourage people who are not interested in donating blood even being a healthy person.
- To stimulate people to donate blood voluntarily who are interested in donating blood only to their relatives or friends.
